SUMMARY

Mobile App Developer with technical support skills, experienced in building cross-platform apps using Flutter, Firebase, and Supabase. Proficient in modern state management tools like Riverpod, GetX, and BLoC. Skilled in UI/UX design, Git version control, and collaboration within Agile environments. Passionate about solving real-world problems through clean and maintainable code.

WORKING EXPERIENCE

Ardilia Villa, Jambi

Jan 2024 – May 2024

Mobile App Developer (Freelance)

- Developed an Android mobile app for the admin side to record villa rental transactions and other related data.
- Designed the user interface (UI) and user experience (UX) for the application, ensuring a seamless and intuitive user journey.
- Implemented the app using Flutter and Firebase for real-time data management and secure authentication.

Kerinci Wisata Ekspres, Sungai Penuh

Aug 2023 – Oct 2023

Mobile App Developer (Freelance)

- Utilized Flutter and Firebase to develop a mobile application tailored specifically for administrative use.
- Implemented Cubit-based state management architecture to efficiently handle data flow.
- Developed a comprehensive reporting system within the admin-side interface, enabling administrators to generate daily, weekly, and monthly transaction reports in PDF format.

Balai Taman Nasional Kepulauan Seribu, Jakarta

Aug 2022 – Dec 2022

Web Developer Intern

- Developed websites using WordPress.
- Designed responsive and user-friendly UI and UX.
- Created and structured engaging and informative content for landing pages.

Yusuf Villa, Bogor

Jul 2020 – Oct 2020

Web Developer (Freelance)

- Developed a villa booking website using WordPress.
- Integrated automated booking features and a contact form to support efficient reservation management.
- Assisted the client with deployment, domain management, and basic WordPress training for daily operational needs.

PROJECT EXPERIENCE

OurTube – YouTube Clone App (Flutter, Riverpod, Firebase, Supabase, YouTube Data API v3)

GitHub: https://github.com/yudizlto/ourtube_flutter

- Integrated Firebase Authentication and Firestore Database for user management and data storage.
- Utilized Supabase for efficient video and image hosting.
- Applied localization (l10n) to support multilingual users.
- Fetched and displayed video data using YouTube Data API v3.

MemoMate – Notes & To-Do List App (Flutter, Hive)

GitHub: https://github.com/yudizlto/flutter_memomate_app

- Built a personal productivity app project for managing notes and tasks using Flutter and Hive for offline data storage.
